1. PROJECT SCOPE

EVOLIX will develop a responsive, easy-to-use software solution for Al Jafanat to manage customer orders, thaal planning, deliveries, payments, vendors, groceries, expenses and management reporting from desktop, iPad and mobile.

2. CORE FUNCTIONALITY

- Daily orders dashboard and weekly calendar.
- Monthly order tracker with thaal count.
- Most ordered items and delivery tracking.
- Income, outgoing, profit and expense tracking.
- Grocery requirement tracking, day-wise.
- Vendor billing, payments and order management.
- Payment tracking, reminders and updates.
- Customer order tracker and notifications.
- Order cancellation and printable order sheet.
- Multiple reports with iPad/mobile access.

3. ORDER ENTRY FLOW

1. Select the menu: Sodannu, 1 Kharaas, 1 Meethaas, 1 Tarkaari, Main course, Sides and optional add-ons such as Drinks, Fruits, Dry Fruits and Paan.
2. Display indicative thaal pricing, select thaal quantity and apply a discount when required.
3. Enter customer Name, Mobile number, Delivery date, Delivery address and Email ID. Customer data remains retrievable by mobile number.
4. Add Crockery type (Kaanch / Melamine), Helpers and Safra sets with cost attributed per item.
5. Add area-based delivery cost, review the final order summary and thaal amount, then confirm the order.
6. Send email confirmation, store the order in the weekly dashboard calendar and print the order sheet.

4. BACK-END TRACKING

- Daily count of thaals to be cooked with item-wise breakup.
- Tentative day-wise grocery requirement.
- Monthly orders, payment and financial reports.
- Expense, income, vendor and operational tracking.

A single operational system designed to reduce manual follow-up, improve daily planning and give Al Jafanat a clear view of orders, costs and collections.

COMMERCIAL OFFER & OWNERSHIP

A final relationship price structured to keep payments predictable and transfer ownership after completion.
