Campaign period: 7 September - 4 October 2026

01 Content strategy

Content will position Altivon as a transparent B2B sourcing partner. The goal is qualified attention from importers and product businesses - not mass consumer followers.

Pillar	Role	Share
Product intelligence	Explain grades, variants, applications and selection.	25%
Quality and proof	Show documents, tests, traceability and packaging.	25%
Buyer education	Answer procurement, sample, MOQ and shipping questions.	20%
Founder and process	Humanise the company and demonstrate operating discipline.	15%
Country and conversion	Speak to priority markets and invite qualified inquiries.	15%

Recommended cadence: 3-4 core posts each week, 4-5 active Story days, 2-3 founder LinkedIn posts, and one technical PDF/document post each week. Each asset can be repurposed, but captions must be adapted to the platform.

07 Production and approval workflow

Step	Owner	Requirement
Monthly product briefing	Altivon + Evolix	Confirm variants, claims, documents and current availability.
Batch filming	Altivon	Capture real product, founder, packaging and approved supplier processes.
Script and design	Evolix	Prepare platform-specific hooks, captions, documents and Reels.

Publishing	Evolix	Publish according to the calendar after approval.
Lead response	Altivon	Handle commercial questions, samples and quotations.
Monthly review	Altivon + Evolix	Review qualified reach, clicks, inquiries and sales progression.

08 Measurement framework

Stage	Primary KPI	Decision
Awareness	Qualified reach, non-follower Reel reach, target-country visits	Which topics and countries attract relevant attention?
Engagement	Saves, document views, useful comments and profile visits	Which education builds trust?
Consideration	Product-page visits, TDS/COA/sample actions	Does content create buying intent?
Conversion	Qualified inquiries, sample requests and quotations	Is the funnel generating commercial opportunities?
Sales progression	Negotiations, follow-up completion and outcomes	Where are opportunities stalling?

The quality of the audience matters more than the follower total. A procurement manager, product developer or ingredient distributor is more valuable than hundreds of unrelated followers.
